Points on Piercing: Oral and Systemic Health Considerations of Orofacial Piercings & Mugs and Drugs: A Look at Today's Counter-Culture Trends and Their Impact on Oral Health

Betsy Reynolds RDH, MS

Saturday February 27, 2010 9a.m.-4p.m. (6 CE's) Breakfast and Lunch Included

Course Description:

Piercing: As orofacial piercings become more common, the healthcare professional must become more familiar with the unique healing dynamics, piercing care strategies, and dental implications associated with this trend. Presented in a relaxed, multi-media forum utilizing specific case studies, the participant will learn about in-office strategies and home care recommendations to meet the oral health care needs of the pierced dental patient.

Mugs and Drugs: Course participants will get an understanding of the impact certain counter-cultural trends have on oral health care delivery. The faces of today's counter-cultural movement come with a set of treatment variables not commonly encountered previously in the field of dentistry. Recognizing substance- and self-abuse patterns will aid the dental professional in recognizing potentially life-threatening behaviors. Abuse of drugs by today's dental patient can play an important role in the delivery of oral health services and greatly impacts home care recommendations. This course will provide participants with the necessary resources to recognize, treat and provide supportive

6 CE's

ADHA Members \$100

Potential members, DDS, CDA \$150

Student Members \$15

Registration Deadline: Feb. 19, 2010

Location

Northeast Conference Center

4140 Executive Parkway

Westerville, OH 43081
